

EZ-RAID Express

EZ RAID express is a simple and convenient hardware raid solution. It combines the quality and features you would find only in high end RAID subsystems into a convenient, cost effective storage solution offering full RAID data protection. EZ-RAID comes as a complete plug and play solution including cables. Data protection is provided by a RAID 1 implementation including the ability to hot swap failed drive without bringing the system down, and support for automatic or scheduled rebuild of the replacement drive. The system is totally hardware and software independent and can be plugged into the SCSI port of any system including PC, MAC, SUN and it will just appear as a standard hard drive.

EZ Just connect and use appears as single drive letter

HARDWARE RAID

The EZ-RAID features:

- * Hot Swap Mountable disk storage modules enabling on-line replacement of failed drive.
- * 2 or 4 Bay metal construction tower
- * No software required to be installed
- * Hardware RAID 1 provides data protection.

EZ RAID Express Configurations

ARRAY MODEL	EZE144	EZE288
DRIVES	2 X 72GB	4 X 72GB
TOTAL CAPACITY	144GB	288GB
USER CAPACITY	72GB	144GB
INTERFACE	SCSI	SCSI
SEEK TIMES	6.5MS	6.5MS
SUSTAINED TRANSFER	35MB	35MB
DRIVE MTBF (Hours)	900,000	900,000
DIMENSIONS		
WIDTH	210mm	210mm
DEPTH	280mm	280mm
HEIGHT	105mm	230mm
WEIGHT	5kg	12kg
POWER SUPPLY	70W	150W
